| <b>Objective 4 - Become a Sustainable, Effective Organisation</b>  |  |   |                                      |
|--|--|---|--------------------------------------|
| <b>Priority ID and reference</b>   | 4.1.Live within our means both in year and ensure sustainability into the future | <b>Director responsible</b>   | Chief Finance Officer                |
|  |  | <b>Initial Risk</b>   | S5 x L3 = 15                         |
| <b>Key Action for 2013/14 objectives and description of any potential significant risk to this priority</b>  | 4.1 Failure to deliver income plan   | <b>Current rating</b>   | S5 x L3 = 15                         |
|  |  | <b>Target risk score</b>  | S4 x L2 = 8                          |
|  |  | <b>Linked to Risk</b>   | 1479                                 |
| <b>Controls in place (to manage the risk)</b>  |  | <b>Gaps in Control</b>  |                                      |
| 1) Business Plans and budgets (activity and financial) savings / transformation plans<br>2) Signed contract with commissioners.<br>3) Contract management process in place - clearer and better structure than last year<br>4) Health system Local Transformation Board (LTB) - now augmented (July 2013) with a Finance e sub-group which is discussing forecast outturn on the contract<br>5) Financial reporting, including forecast scenarios presented to Board   |  | 1) Issues over contract process . we are having to adapt to CSU and CCG timetables and the fact there are two CSUs, occasionally with differing views, and the secondary layer between several CCGs and their CSUs (which adds time)<br>2) Previous control gaps have been remedied . a CCG activity plan has been received (although not adapted to actual activity) and the on recurrent support has been invoiced.   |                                      |
| <b>Potential Sources of Assurance (documented evidence of controls effectiveness)</b>  |  | <b>Actual Assurances: Positive (+) or Negative (-)</b>  |                                      |
| 1) Financial performance quality and contractual reporting to Management Board and Trust Board (including CQUIN reporting process).<br>2) Performance Review process with Divisions, monthly contract cycle with CCGs (including clinical quality review where SASH Directors account for performance). Service line reporting process<br>3) Outputs and reporting from contract and information teams<br>4) Output and reporting from health system management (e.g.: System Management Team meeting)<br>5) Output of Contract Management Process |  | Positive:<br>(+) Activity at M10 aligns overall with Trust plan . and there is over performance<br>(+) Non recurrent support resolved<br>(+) Overall forecast I&E position is balanced - income covers spend<br>(+) Forecast shared transparently with CCGs (to M10)<br>(+) M01-7 reconciliation completed - over performance is being paid in cash terms<br>(+) CCGs engaging over LTB community bed scheme . deal has been done<br>Negative:<br>(-) Winter emergency activity puts pressure on elective income<br>(-) Too much non elective activity, not enough elective.<br>(-) No resolution to significant contractual dispute over the readmission audit at M10.<br>(-) extent of financial challenge from CCGs<br>RAG kept at red (15) because of disputes over income. |                                      |
| <b>Gaps in assurance</b>   |  |   | <b>Assurance Level gained: Amber</b> |
| (1) Effective operation by CCGs and CSU of contract process, although this has reduced and all issues are now either resolved or in a formal process. Amber because of that formal process (we still disagree)   |  |   |                                      |
| <b>Mitigating actions underway</b>   |  | <b>Progress against mitigation (including dates, notes on slippage or controls/ assurance failing.</b>  |                                      |
| I) Regular Contract monitoring meetings in place and working;<br>II) Range of actions on unscheduled care: internal U/S Care Board running, engagement with other providers now part of weekly business -<br>III) LTB agreed community beds plan is having an impact;<br>IV) Formalised disputes now in train with CCGs on outstanding issues.<br><br>Note: CHC assessment remains an issue and other actions to support unscheduled activity reductions not visible [to Trust]  |  | Actions proceeding to timetable - no suggestion currently Health System actions on unscheduled care will resolve.   |                                      |
| <b>Update by</b>   | PS 20/02/14  | <b>Date discussed at Board</b>  | To be discussed at March Board       |

| <b>Objective 4 - Become a Sustainable, Effective Organisation</b>  |  |   |                                      |
|--|--|---|--------------------------------------|
| <b>Priority ID and reference</b>   | 4.2 Live within our means both in year and ensure sustainability into the future | <b>Director responsible</b>   | Chief Finance Officer                |
|  |  | <b>Initial Risk</b>   | S5 x L3 = 15                         |
| <b>Key Action for 2013/14 objectives and description of any potential significant risk to this priority</b>  | 4.2 Failure to stop divisional overspending against budget                       | <b>Current rating</b>   | S4 x L3 = 12                         |
|  |  | <b>Target risk score</b>  | S3 x L2 = 6                          |
|  |  | <b>Linked to Risk</b>   | 1365                                 |
|  |  | <b>Controls in place (to manage the risk)</b>   | <b>Gaps in Control</b>               |
| 1) Business Plans and budgets (activity and financial) savings / transformation plans<br>2) Divisional activity plans agreed & signed off<br>3) Additional activity budget being allocated after agreement of specific pressures<br>4) Internal Performance Review process<br>5) Programme Management Office and CEO review<br>6) Forecast scenarios presented to Board  |  | No significant gaps in control identified   |                                      |
| <b>Potential Sources of Assurance (documented evidence of controls effectiveness)</b>  |  | <b>Actual Assurances: Positive (+) or Negative (-)</b>  |                                      |
| 1) Financial performance quality and contractual reporting to Management Board and Trust Board (including CQUIN reporting process).<br>2) Performance Review process with Divisions, monthly contract cycle with CCGs (including clinical quality review where SASH Directors account for performance). Service line reporting process<br>3) Outputs and reporting from contract and information teams<br>4) Output in financial reporting describes improvement and risk mitigation. Linkage between activity levels and spend is clear from 2012/13<br>5) PMO review process (monthly) |  | <b>Positive</b><br>(+) Overall forecast I&E position is balanced from profiled reserves - income covers spend at M10 . savings on track (but see about mitigation below)<br>(+) Control totals agreed with all Divisions, in line with income forecast<br><br><b>Negative</b><br>(-) At M10 one Division has exceeded control total . risk in 2 others.<br>(-) Although savings on target, savings are requiring mitigation<br>(-) Nursing agency spend reducing, but overall agency cost remains high. |                                      |
| <b>Gaps in assurance</b>   |  |   | <b>Assurance Level gained: Amber</b> |
| (1) Divisional management of overspends . M10 shows some weakness in some Divisional processes .   |  |   |                                      |
| <b>Mitigating actions underway</b>   |  | <b>Progress against mitigation (including dates, notes on slippage or controls/ assurance failing.</b>  |                                      |
| I) PMO/Performance structure continues [PMO is proving effective]<br>II) Controls are being exercised in divisions and are being applied centrally . Control totals have been agreed;<br>III) Further budget changes have now been halted unless absolutely necessary.   |  | Actions proceeding to timetable.  |                                      |
