Summary of Key Issues			
<p>The publication of an annual Quality Account is mandatory, as is some of the prescribed content and consultation with the local health and social care economy. The account needs to be uploaded to Department of Health NHS Choices website by 30th June.</p> <p>This account builds on that of 12 months earlier and describes how we have performed against the quality targets we set ourselves at that time. The opinion of some of our partners and of the executive is that we continue to make progress towards the trust objectives of delivering care which is safe, effective, responsive to patients needs and is well led by clinicians and managers working together.</p>			
Relationship to Trust Strategic Objectives & Assurance Framework:			
<p>SO1: Safe -Deliver safe services and be in the top 20% against our peers SO2: Effective - Deliver effective and sustainable clinical services within the local health economy SO3: Caring – Ensure patients are cared for and feel cared about SO4: Responsive – Become the secondary care provider and employer of choice for the catchment populations of Surrey & Sussex SO5: Well - led</p>
