Summary of Key Issues			
<p>Having a Travel Plan is a key requirement for a number of reasons and has been for some time.</p> <p>The Trust's Travel Plan needed a complete revision having been in use for some years. This has been done collaboratively with Surrey County Council and now requires formal approval by the Board.</p> <p>An approved plan is essential element of the continued development of the site as without it planning constraints may prevent future developments.</p> <p>A key element of the Travel Plan is showing how we will support and encourage the use of other types of travel other than cars and this is well evidenced within the plan.</p>			
Relationship to Trust Strategic Objectives & Assurance Framework:			
<p>SO2: Effective - Deliver effective and sustainable clinical services within the local health economy</p> <p>SO5: Well – led</p>			
Corporate Impact Assessment:			
Legal and regulatory implications	Planning constraints and other similar legislation		
Financial implications	Any costs of implementation will be met through revenues from car parking		
Patient Experience/Engagement	Will significantly enhance patient experience by ensuring they are able to access East Surrey Hospital in an efficient manner		
Risk & Performance Management	Mitigates risk around access to the site
