Purpose of Report:			
The hip fracture unit has been in development of the recent years and takes part in both regional and national quality improvement projects. In February 2016 the unit had a peer support visit.			
Summary of key issues			
<ul style="list-style-type: none"> • Significant improvement in metric achievement in both regional and national projects • Particular success areas related to patient experience (post-operative pain assessment) and safety (delirium assessment) • Ongoing key challenges highlighted at the peer support visit include the ward environment, pre-operative nerve block service and developing parity of service for patients with other complex needs. 			
Recommendation:			
<ul style="list-style-type: none"> • To see the value of external peer support visits. • To be aware of the challenges the unit still faces • The need and potential benefit of expanded orthogeriatric services to other older patients with frailty and fractures in SaSH 			
The Board is asked to note the report.
