Purpose of Report:			
The SDMP is coming to The Board following its discussion at FWC for wider discussion and approval			
Summary of key issues			
<p>The SDMP document establishes a set of principles and targeted interventions aimed at moving towards a more sustainable model of healthcare.</p> <p>The NHS is faces three big challenges:</p> <ol style="list-style-type: none"> 1. a £30 billion funding gap to 2020; 2. a huge carbon footprint (the largest public sector emitter of CO2 in the UK), and a target to reduce that by 34% by 2020; and 3. as the largest employer in Europe the productivity of it's 1.3 million staff has been highlighted by Lord Carter as a key area for improvement. <p>Moving to a more sustainable model of care is about rising to these three challenges in a coordinated way, focusing on actions that support and reinforce finance, carbon and health and wellbeing (both of our staff and our patients) at the same time.</p> <p>is document sets out how we intend to achieve this.</p>
