Freedom of information request

I am writing in response to your request for information which has been handled under the Freedom of Information Act 2000 (FOIA).

Your questions and our response are below.

I am looking for information relating to any operations carried out that were concerned with Maxillofacial with particular emphasis on double jaw surgery, mandibular correction surgery.

I am looking for the info that relates to the years of January 2012 to December 2015 inclusive and that shows how many operations were conducted, how many were successful and how many were involved with complications such as stroke etc.

The Trust does not carry out these types of surgery; any of our patients needing this have their surgery at Queen Victoria Hospital.
